

GOVERNMENT SERVICES PLANNING COMMITTEE

March 28, 2018

**Green County Courthouse
1st Floor Conference Room**

6:15 p.m.

Members Present

Art Carter
Herb Hanson
Barb Krattiger
Dennis Everson
Joan Rufenacht
Harvey Mandel

Members Absent

Jerry Guth

Others Present

Mike Doyle
Ken Erickson

The meeting was called to order by Chair Carter.

Motion by Krattiger seconded by Everson to approve the minutes of the March 12, 2018, meeting. Motion carried.

The committee discussed electrical upgrades. **Motion by Mandel, seconded by Rufenacht to approve the three changes proposed by Pieper Power. Motion carried.**

The committee discussed the domestic water line requested by Michael Kennison Water and Waste Water Supervisor for City of Monroe. The request was forwarded to the county's architect firm Potter Lawson for review. It was further referred to Steve Mumm, the senior engineer at Potter Lawson. Mr. Mumm stated "this is definitely a strange request and there is no code requirement for this." The fire protection line and domestic water line are separated almost immediately upon entry to the building and the building has a code-required isolated valve on the domestic water entrance. The valve is typically the building shutoff/control valve and could be utilized for that purpose. One of the purposes stated by Mr. Kennison for a separate domestic water line was that if the county neglected to pay its water bill, the city could shut the domestic water line off without affecting the fire suppression system. The county obtained an estimated price of \$9,500.00 from Monona Plumbing. **Motion by Mandel, seconded by Hanson to reject the request by the city for a second domestic water line.**

Motion by Krattiger, seconded by Everson to adjourn. Motion carried.
